

REDUCING COSTS IN THE LOGISTICS LOOP

FEATURES AND BENEFITS

- Stackable – saving valuable racking space
- Reusable – saving costs vs. single use alternatives
- Foldable – saving space in storage and on return transport
- Hygienic – easy to clean smooth surfaces
- Economical – transport amortisation favourable vs. rigid alternatives
- Easy to use – operational savings and higher yield potential

All IBC containers are delivered with lid and outlet. Liner bags have to be ordered separately.

The AUER IBC-System is a unique range of folding returnable containers used for the storage and distribution of liquid products. A single use liner is the only waste generated from the system, which makes it a more economical solution to disposable containers.
